BRAND INTRODUCTION

Brand Name: **Kuli-Kuli** (Peanut Cakes)

Product Description:
Kuli-Kuli is a traditional Nigerian snack made from groundnuts. It is known for its crunchy texture and rich, nutty flavor. The brand offers two distinct variations to appeal to different taste preferences: sweet and spicy.

Key Selling Points (Unique Value Proposition):

1. Crunchy texture (satisfying snack experience)
2. Two flavor options (sweet for those with a sweet tooth, spicy for those who enjoy heat)
3. Made from groundnuts (locally loved, familiar ingredient)

Availability:

- Wholesale – For business owners, resellers, and bulk buyers
- Retail – For individual customers who want to enjoy as a personal snack

Sales Channel / Conversion Point:
Customers place orders via:

- Phone call
- WhatsApp (to 08160097131

KULI-KULI CUSTOMER JOURNEY (Full-Funnel Map)

Funnel Stage	Audience Type	Customer Action	Customer Thoughts/Feelings	Touchpoint	Marketing Goal
AWARENESS	Cold Audience	Sees an Instagram/Facebook ad or hears from a friend	"What is Kuli-Kuli? That looks like a tasty snack. I love groundnuts."	Social media ad, word of mouth	Introduce the brand and product
CONSIDERATION	Warm Audience	Saves the phone number, views WhatsApp status, asks about prices via DM or call	"How much is it? Is it really crunchy? Can I buy in small quantity?"	WhatsApp, phone inquiry, social media page	Provide information, build trust, answer questions
CONVERSION	Hot Audience	Sends a WhatsApp message or calls to place an order	"Okay, I'll try it. The price is good. Let me order now."	Call or WhatsApp to 08160097131	Make ordering easy and get the sale
RETENTION	Warm/Hot Audience (Existing customers)	Receives order, tastes it, enjoys it, shares with friends, reorders later	"This is really good! I should buy more. Let me tell my friends about it."	Product experience, WhatsApp follow-up, word of mouth	Encourage repeat purchases and referrals

WHO ARE KULI-KULI CUSTOMERS?

I need to define the target audience based on who is most likely to buy. Since Kuli-Kuli sells in both wholesale and retail, I actually have two main audience segments.

AUDIENCE SEGMENT 1: RETAIL BUYERS (Individual Snackers)

These are people buying for personal consumption.

Targeting Category	Details
Demographics (Age)	18–40 years old
Demographics (Gender)	Male and Female (snacks appeal to everyone)
Demographics (Location)	Urban and semi-urban areas in Nigeria (Lagos, Ibadan, Abuja, Port Harcourt, etc.)
Interests	Food lovers, people who enjoy Nigerian snacks, students, office workers looking for quick bites
Behaviours	Active on social media (Instagram, Facebook), use WhatsApp regularly, enjoy trying new snacks, buy from small businesses online
Needs	Quick hunger fix, craving for something crunchy, affordable treat, convenience of ordering via WhatsApp
Audience Type	Cold (new customers) → Warm (engaged) → Hot (ready to order)

AUDIENCE SEGMENT 2: WHOLESALE BUYERS (Resellers & Business Owners)

These are people buying in bulk to resell.

Targeting Category	Details
Demographics (Age)	25–50 years old
Demographics (Gender)	Male and Female
Demographics (Location)	Across Nigeria (especially areas with high foot traffic like markets, bus stops, malls, schools)
Interests	Small business owners, entrepreneurs, people interested in snack reselling, shop owners, market women
Behaviours	Looking for products to buy and resell, active in business groups on WhatsApp/Facebook, price-conscious, value good profit margins
Needs	Reliable supply of quality snacks, good wholesale price, easy reordering process, products that customers will love and buy again
Audience Type	Cold (new business customers) → Warm (inquired about prices) → Hot (ready to place bulk order)

WHAT DO THESE AUDIENCES NEED?

Understanding needs helps to create the right ad message and creative

Audience	Primary Needs	Pain Points (Problems They Face)
Retail Buyers	Tasty snack, affordable, easy to order, quick delivery	Bored of regular snacks, want something crunchy, don't want to stress going to the market
Wholesale Buyers	Good profit margin, consistent quality, reliable supplier, easy reordering	Trouble finding snacks customers love, suppliers who are inconsistent, low quality products

CAMPAIGN OVERVIEW

For Kuli-Kuli,I will create two separate campaigns because I have two different audiences with different needs:

1. Campaign A: Targeting Retail Buyers (individual snackers)
2. Campaign B: Targeting Wholesale Buyers (resellers/business owners)

CAMPAIGN A: RETAIL BUYERS (Individual Snackers)

1. CAMPAIGN LEVEL: Objective

Element	Details
Campaign Objective	Conversions (We want people to take action: call or WhatsApp to order)
Why This Objective?	Our goal is to get actual orders. My true business goal is sales.
Platform	Meta Ads (Facebook & Instagram) – Because our retail audience is active here

2. AD SET LEVEL: Targeting & Budget

Element	Details
Targeting: Demographics	Age 18–40, Male & Female, Location: Nigeria (Lagos, Abuja, Ibadan, Port Harcourt, etc.)
Targeting: Interests	Food lovers, Nigerian snacks, small chops,food pages followers, students, office workers
Targeting: Behaviours	Active on Instagram/Facebook, use WhatsApp, engage with food content
Placement	Instagram Feed, Facebook Feed, Instagram Stories
Budget Type	Daily Budget
Budget Amount	₦5,000 per day
Why This Budget?	Following Page 18: If our CPA goal (Cost Per Action) is ₦500 per order and I want 10 orders per day, budget ≈ ₦5,000/day
Schedule	Run for 7 days (total budget: ₦35,000)
Optimisation Event	Conversions (I want the platform to show ads to people likely to call/WhatsApp)

3. AD LEVEL: Creative & Copy

Element	Details
Ad Format	Single image or short video ("Human-first content")
Visual	A close-up photo of crunchy Kuli-Kuli pieces, looking golden and delicious. Someone holding one and smiling. Text overlay: "Crunchy. Sweet. Spicy."
Primary Text (Copy)	"Craving something crunchy? Try Kuli-Kuli peanut cakes – available in sweet and spicy. Perfect for your 4pm snack fix! Call or WhatsApp 08160097131 to order now. Wholesale & retail available."
Call-to-Action (CTA)	"Send WhatsApp Message" or "Call Now"
Landing Page	The conversion point is direct WhatsApp or call. The ad will have a click-to-call or click-to-WhatsApp button.

CAMPAIGN B: WHOLESALE BUYERS (Resellers & Business Owners)

1. CAMPAIGN LEVEL: Objective

Element	Details
Campaign Objective	Leads (I want business owners to inquire about wholesale prices)
Why This Objective?	Wholesale buyers need more information before committing (prices, minimum order quantity, profit margin). I want them to inquire first.
Platform	Meta Ads (Facebook & Instagram) + WhatsApp Business

2. AD SET LEVEL: Targeting & Budget

Element	Details
Targeting: Demographics	Age 25–50, Male & Female, Location: Nigeria (nationwide, especially commercial areas)
Targeting: Interests	Small business owners, entrepreneurs, people in "Buy & Sell" groups, market traders, shop owners, people interested in snack reselling
Targeting: Behaviours	Active in business groups on Facebook/WhatsApp, frequently engage with wholesale content
Placement	Facebook Feed, Facebook Marketplace, Instagram Feed
Budget Type	Daily Budget
Budget Amount	₦3,000 per day
Why This Budget?	Smaller audience, higher value per customer. I need fewer conversions but each order is larger.
Schedule	Run for 7 days (total budget: ₦21,000)
Optimisation Event	Leads (I want people to send an inquiry)

3. AD LEVEL: Creative & Copy

Element	Details
Ad Format	Image or carousel (showing different packaging sizes)
Visual (Creative)	Image of Kuli-Kuli in wholesale packs (bigger bags). Text overlay: "Sell Kuli-Kuli – Make Profit!"
Primary Text (Copy)	"Looking for a fast-moving snack to sell? Kuli-Kuli peanut cakes are loved by everyone – crunchy, sweet & spicy! Buy wholesale and enjoy good profit margins. Call or WhatsApp 08160097131 for wholesale price list."
Call-to-Action (CTA)	"Send WhatsApp Message" (for price inquiry)
Landing Page	Direct to WhatsApp with automated message: "Hello, I'm interested in wholesale Kuli-Kuli. Please send price list."

AUDIENCE SEGMENTATION FOR KULI-KULI

Audience Type	Who They Are	How We Reach Them	Marketing Goal
Cold Audience	Never heard of Kuli-Kuli	Lookalike Audiences, broad targeting ads	Awareness & new customer acquisition
Warm Audience	Clicked ad, engaged with posts, saved content	Retargeting ads (Campaigns 1 & 2)	Nurture interest, build trust, drive to inquiry
Hot Audience	Inquired via WhatsApp/call but didn't buy	Retargeting ads (Campaign 3), direct follow-up	Close the sale, overcome objections
Existing Customers	Already bought before	Retention ads, loyalty offers, WhatsApp broadcasts	Encourage repeat purchases, referrals

TRACKING ENGAGEMENT FOR RETARGETING

I learned about tracking pixels and GTM (Google Tag Manager) . For Kuli-Kuli, Iwould install:

Tracking Tool	What It Tracks	Why It Matters
Meta Pixel	Who clicked the ad, who visited the WhatsApp link/landing page	Helps us create Custom Audiences for retargeting
Conversions API	When someone calls or WhatsApps from the ad	Helps track CPA (Cost Per Action)

RETARGETING STRATEGY FOR KULI-KULI

I will create retargeting campaigns for people who interacted but didn't convert. These are our Warm and Hot Audiences

RETARGETING CAMPAIGN 1: PEOPLE WHO CLICKED BUT DIDN'T ORDER

Element	Details
Audience	Custom Audience: People who clicked the ad link/button but did not call or WhatsApp within 7 days
Audience Type	Warm Audience – They showed interest but haven't converted yet
Why They Didn't Convert	Maybe got busy, forgot, had questions, or needed more convincing
Retargeting Objective	Conversions (remind them to complete the order)
Ad Message	"Still thinking about that crunchy Kuli-Kuli? Don't wait too long! Order now and enjoy the sweet or spicy taste you deserve. 08160097131"
Ad Creative	Image of someone happily eating Kuli-Kuli with a "Still Available!" overlay
Offer/Incentive	"First time ordering? Mention this ad for a FREE extra piece!"
Frequency	Show ad to same person 3-5 times over 5 days (enough to remind, not annoy)

RETARGETING CAMPAIGN 2: PEOPLE WHO ENGAGED WITH SOCIAL MEDIA (Liked, Commented, Saved)

Element	Details
Audience	Custom Audience: People who liked, commented, shared, or saved Kuli-Kuli posts in the last 30 days
Audience Type	Warm Audience – They like the content but haven't taken the next step
Why They Haven't Ordered	Maybe still deciding, waiting for more info, or need a push
Retargeting Objectiv	Traffic or Engagement (drive them to WhatsApp for inquiry)
Ad Message	"You love our posts? You'll LOVE the taste even more! Order Kuli-Kuli today – crunchy, sweet & spicy goodness delivered to you. Tap to order!"
Ad Creative	Short video showing the crunchy texture, with text: "As Seen on Your Feed – Now Taste It!"
CTA	"Send WhatsApp Message"

RETARGETING CAMPAIGN 3: PEOPLE WHO INQUIRED (WhatsApp/Call) BUT DIDN'T BUY

Element	Details
Audience	Custom Audience: People who sent a WhatsApp message or called but didn't place an order
Audience Type	Hot Audience – They were ready to inquire, very close to buying
Why They Didn't Buy	Maybe price was too high, wanted to think about it, or needed a different quantity
Retargeting Objective	Conversions (direct response to close the sale)
Ad Message	*"Still want that fresh Kuli-Kuli? We're still here! Order now and get it delivered. Wholesale & retail available. 08160097131"
Ad Creative	Image of happy customer with Kuli-Kuli, text: "Don't Miss Out!"
Special Offer	"Free delivery on first order for returning customers!"

LOOKALIKE AUDIENCES (Scaling to New Customers)

Once I have enough data from our Custom Audiences, I can create Lookalike Audiences to find new cold audiences who behave like our best customers.

LOOKALIKE AUDIENCE STRATEGY

Source Audience	What It Is	Lookalike Size	Purpose
Top Customers List	People who have ordered multiple times (best customers)	1% Lookalike (most similar to source)	Find new people highly likely to become loyal customers
WhatsApp Inquirers	People who sent a message (warm leads)	1-3% Lookalike	Find new people likely to inquire
Converters (Buyers)	People who actually placed orders	1% Lookalike	Scale campaigns to new cold audiences with high potential

WHAT NEED TO BE TRACK FOR KULI-KULI

Since Kuli-Kuli's conversion action is a call or WhatsApp message, I need to set up tracking to measure these actions.

What to Track	How to Track It	Why It Matters
Impressions	Meta Ads Manager	Know how many people saw our ad
Clicks	Meta Ads Manager	Know how many people clicked to call/WhatsApp
CTR (Click-Through	Calculated (Clicks ÷ Impressions × 100)	Tells us if our ad creative is engaging

Rate)		
CPC (Cost Per Click)	Meta Ads Manager	Tells us how much we pay for each click
Calls/WhatsApp Messages	Meta Pixel + Conversions API + Call tracking	Tells us how many people actually took action
CPA (Cost Per Action)	Calculated (Ad Spend ÷ Number of Orders)	Tells us how much it costs to get one order
Revenue	Manual tracking (ask customers how they heard)	Tells us how much money we made from ads
ROAS (Return on Ad Spend)	Calculated (Revenue ÷ Ad Spend)	Tells us if we're making profit

OPTIMIZATION CHECKLIST FOR KULI-KULI

Every week, we will ask these questions:

Question	How We Apply It to Kuli-Kuli
Who am I targeting?	Are we reaching the right people? Check demographics and interests in Ads Manager
Which creatives perform best?	Compare sweet vs spicy ads, image vs video, different copy messages
Where am I losing people in the funnel?	Are people clicking but not calling? Maybe our WhatsApp number is hard to find. Are people calling but not ordering? Maybe price is too high.
Is the landing page working?	For us, the "landing page" is the WhatsApp chat or phone call. Are we responding quickly? Is our greeting friendly and helpful?
Did tracking break?	Check if Meta Pixel is still firing. Are calls being counted correctly?
Should I scale or pause?	If ROAS is good → scale (increase budget). If ROAS is poor → pause and fix.

WEEKLY OPTIMIZATION ROUTINE FOR KULI-KULI

Day	Action
Monday	Review previous week's metrics: CTR, CPC, CPA, ROAS
Tuesday	Identify best-performing ad creative: "Which creatives perform best?")
Wednesday	Pause underperforming ads, increase budget for winning ads
Thursday	Check tracking: Is Pixel firing? Are calls being recorded? "Did tracking break?"
Friday	Test new creative variations (A/B testing)
Saturday	Monitor weekend performance (snack orders may increase on weekends)
Sunday	Prepare report for next week
